PROFESSIONAL SUMMARY

Software Engineer with **1.5 years of hands-on experience** building **scalable, well-tested, production-grade software** across the complete development lifecycle. Strong expertise in **clean code principles, comprehensive testing** (96–98% coverage), and **Agile methodologies**. Proven ability to **translate technical specifications into robust solutions, debug and optimize systems**, and **collaborate seamlessly** with cross-functional teams. Proficient in Java, Python, JavaScript, Node.js, TypeScript and modern tools including Docker, Kubernetes, Git/GitHub.

EDUCATION

Lalbhai Dalpatbhai College of Engineering, Gujarat Technological University — Ahmedabad, Gujarat | **2021 – 2025**
Bachelor of Engineering in Computer Engineering (CGPA: 8.93 / 10.00)

TECHNICAL SKILLS

Core Languages Java, Python, JavaScript, Node.js, TypeScript, C#
Backend Frameworks Spring Boot, Node.js, .NET Core, REST APIs, gRPC
Frontend React.js, HTML, CSS, Bootstrap, Material UI, AntD
Databases PostgreSQL, MongoDB, Cosmos DB
DevOps & Cloud Docker, Kubernetes, Git, GitHub, Bitbucket, Azure, CI/CD
Testing & Quality JUnit, Playwright, Pact (Contract Testing), K6, TDD
Methodologies Agile (Scrum), Clean Code, Microservices, DevOps

PROFESSIONAL EXPERIENCE

Associate Software Engineer — Aptologics Pvt Ltd | **July 2025 – Present**

- Built **production-grade microservices** using Java Quarkus and .NET Core with **96% Java / 98% .NET test coverage**
- Designed **gRPC services in Go**, achieving **3x lower latency** vs REST under concurrent load
- Built **K6 performance testing framework** with Grafana dashboards for real-time API monitoring (500+ concurrent requests)
- Developed **React + AntD KPI dashboards** with reusable multi-dimensional components
- Collaborated with **cross-functional teams** (architects, business analysts, product managers)
- Managed **database scripts and schema changes**; resolved production issues (OOM exceptions, portal sync bugs)

Associate Software Engineer Trainee — Aptologics Pvt Ltd | **Jan 2025 – June 2025**

- Authored **29+ Playwright E2E tests** with **95% coverage**, integrated into Bitbucket CI/CD pipelines
- Implemented **consumer-driven contract testing** via Pact + Pact Broker across microservices
- Built **integration test framework** using Python FastAPI + Docker for REST API validation
- Engineered **containerized MCP Server** using Docker + Python FastMCP + PostgreSQL
- Designed **observability dashboards** using Azure App Insights Kusto queries
- Integrated HubSpot APIs; implemented UI changes including breadcrumb navigation

KEY PROJECTS

Secure Transaction Processing Platform — Java, Spring Boot, Kafka, Docker, Kubernetes
Event-driven microservices with JWT auth, Kafka pub-sub, circuit breakers, Kubernetes deployment

REST vs gRPC Performance Benchmark — Go, gRPC, K6, Node.js
Benchmarked REST vs gRPC architectures; proved 3x throughput gain for gRPC

Kafka Event Streaming Demo — Apache Kafka, TypeScript, Docker
Kafka producer-consumer pipeline with typed envelopes, Docker Compose orchestration

gRPC Microservice with MongoDB — Go, gRPC, MongoDB, Docker
Two distributed Go gRPC services with MongoDB and runtime protobuf introspection

KEY ACHIEVEMENTS

- Owned **complete development lifecycle** of PMS integration (Sikka) from requirements through deployment
- Maintained **96-98% test coverage** across Java and .NET Core projects
- Led **automation quality improvements** across 4 products (Plansight, Analytics, DI-Explorer, Better Together)
- Presented **technical POCs** (Pact, gRPC benchmarks, MCP Server) to engineering leadership

CERTIFICATIONS

Anthropic – Introduction to Model Context Protocol (MCP) | **IBM SkillsBuild** – Web Development & Cybersecurity | **IIT Bombay** – Python Fundamentals (80%) | **Microsoft Learn** – GitHub & Version Control
